Featured Builds

02

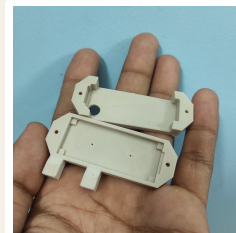

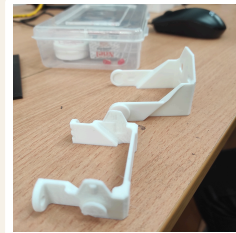

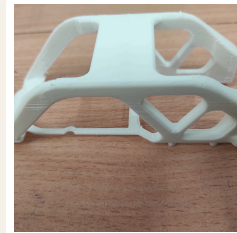

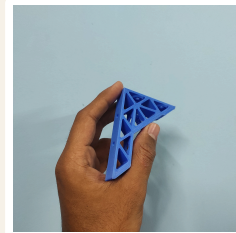

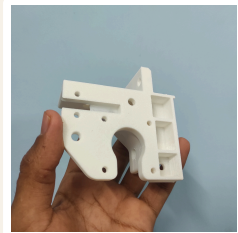

A curated set of the strongest photos for quick browsing and first impressions.

Functional Parts & Fixtures

03

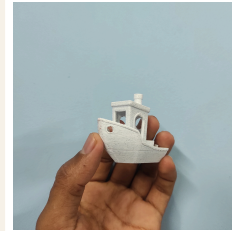

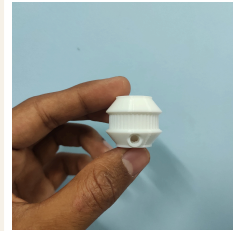

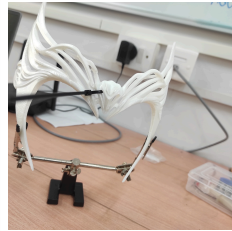

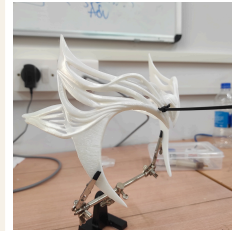

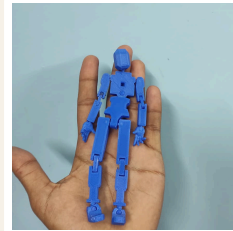

Mechanical details, custom brackets, holders, and prototype-ready utility parts.

Models & Miniatures

04

Character prints, articulated parts, and creative builds that show variety beyond engineering components.

Assemblies & Surface Details

05

Grouped parts, surface-finish views, and assembly shots that work well in a portfolio-style catalog.
